CHRISTENSEN FERRANT

Project Executive / Senior Project Manager

EXPERIENCE

TAVARES LLC **Providence, RI**

January 2017 to Present Senior Project Manager

Maintained office and warehouse operation for Massachusetts location; Daily responsibilities consisted of developing new project opportunities, estimating, scheduling, supporting current projects with logistics, process, changes, staff, equipment and materials. Oversaw all aspects of the construction projects for the Newburyport office. Responsibilities include estimating, scheduling, purchasing, project accounting, contract management & sub-contractor management. Various demolition, abatement and general contracting projects ranging from $10,000 to 3 Mil +.

ESSEX NEWBURY NORTH CONTRACTING CORP. **Newburyport, MA**

May 1997 to December 2016 Senior Project Manager

Performed duties of Construction Supervisor and Project Manager, Project Executive, Estimator, Scheduler, Purchaser and Sub Contractor Manager for all projects. For 14+ years I've been the single point of contact for all clients and their project needs by bridging the communication and information gaps from problem solving to execution in the field and to the office.

Secured and managed projects in the following sectors ranging from 10k to 2 Mil +. Retail, Office, Industrial, Education, Pharmaceutical, Banking and Transportation. Projects were a mix of General Contractor & Sub Contractor roles performing tasks such as: asbestos removal and disposal, lead removal and disposal, interior demolition, labor support, structural demolition, building weatherization, building rough blocking, framing, drywall, taping, painting, concrete, clean up, project safety and project trade support.

Oversaw office operations for field staff, vehicle use and maintenance, equipment deliveries & maintenance, warehouse & staff, project consumable / material deliveries. Implemented and maintained estimating software system. Oversaw office and field IT computer, phone and equipment needs.

Stayed in the field for 10+ years working up through various positions such as an Engineer, Assistant Superintendent, General Superintendent, Project Manager and Senior Project Manager.
