WEDNESDAY - DAY 3

WHAT IS AN OFFER?

Offer – The opportunity you give a potential client to exercise their desire to buy (or otherwise obtain) the thing or things that you helped them realize they've desired all along, at the price that you previously decided on and they have subsequently agreed to; which they now expect to use to make their experience of life exponentially better!

WHAT IS A SCRIPT?

Script - the written text of a play, movie, or broadcast.

In computer programming, a script is a program or sequence of instructions that is interpreted or carried out by another program rather than by the computer processor (as a compiled program is). A JavaScript script in a web page runs "client-side" on the Web browser. ...

Predetermined phrases that were written and spoken for the purpose producing a thought and manufacturing an emotion in the people who hear it.

Myron Golden, Ph.D.

WHAT IS MASTERY?

MASTERY - Mastery is the ability to execute effortlessly without the use of conscious resources. The purpose of this challenge is to get you on the road to developing mastery in your business.
