OFFER SCIENCE

MONDAY - DAY 1

WHAT IS AN OFFER?

Offer - The opportunity you give a potential client to exercise their desire to buy (or otherwise obtain) the thing or things that you helped them realize they've desired all along, at the price that you previously decided on and they have subsequently agreed to; which they now expect to use to make their experience of life exponentially better!

The value of your offer will be enhanced or diminished by the value of your content.

4 Levels Of Learning

1. Tactics - What To Do
2. Strategies - Why And When To Do
3. Principles - How It Works
4. Essence - Why It Works

WHAT IS SCIENCE?

Science - The intellectual and practical activity encompassing the systematic study of the structure and behavior of the physical and natural world through observation and experiment. An important side note about the science of a thing is that it must be observable, repeatable, and predictable.

The Reason We Started A Challenge Is To Accomplish The Purpose Of Learning.

Too many people think that listening is learning. They think that reading is learning or they think that watching is learning. The reason people think these things is because they think the purpose of learning is knowing. But the purpose of learning is not knowing. The purpose of learning in MASTERY!

Myron Golden, Ph.D.

WHAT IS MASTERY?

MASTERY - Mastery is the ability to execute effortlessly without the use of conscious resources. The purpose of this challenge is to get you on the road to developing mastery in your business.

DEFINE THE OFFER

- Pick Your People - Who Are You Going To Help?

- Pick Their Payoff - What are you going to help them do?

- Pick Your Price - What Amount Are You Going To Get Paid?

REFINE THE OFFER

- Have Something Good To Say
- Have A Good Way To Say It
- Have A Good Time Saying It Often

CONFINE THE OFFER
