Wheel of Choices

Sell KO, COTR on the team size skills and ability to land meeting

Most likely scenario is to start you with smaller project initially

It is highly likely that your team partner will not want small project

You perform the SAP, Micro under your company - BAM past performance

Capability Statement Review

Take a look at your goals?
Which path of the Decision Matrix will help you achieve your goals in the time allotted?

Homework - Assignment

Perform Self Analysis

1. Decide what you can do? How much? I want to know size of project and/or total FTE count.

2. Determine if the government buys at those quantities? Find regular contracts issued at that level.

3. Identify using decision matrix what is the appropriate level given where you are at and past performance? How long will it take you to reach your goals?

4. If “Faster Further” is your path. Determine who you need based on what you lack?
Is Teaming more appropriate or Consulting?

5. Make a list of potential Teaming partners?
