L-7.1.1
ROLES OF OFFERORS AND TEAMING PARTNERS

Tavares LLC will be the PRIME offeror for the MACC IDIQ at HANSCOM AFB. Tavares will perform all the Construction Management functions to include holding weekly project meetings, document control, quality control, safety, submittals, site supervision, sub-contractor screening and review, security, scheduling, and all other GC administrative requirements these services will more than meet the contract requirements of 15% of GC. We plan to meet the Specialty Trades requirement in a number of ways, our team self-performs several specialty services such as project lay out, stud and dry wall installation, ceilings, doors, demolition, abatement, window and hardware installation, finishes, painting, some flooring and some concrete installation. When these services are self-performed, we will far exceed the 15% requirement in the contract documents.

Tavares is a signature to the Union so we can easily grow our workforce as needed. Our union affiliations include:

- United Brotherhood of Carpenters and Joiners of America / New England Regional Council of Carpenters
- Massachusetts and Northern New England Laborers District Council of the Laborers' International Union of North America
- Rhode Island Laborer's District Council of the Laborer's International Union of North America
- Massachusetts Painters and Allied Trades District Council No. 35
- Rhode Island Painters and Allied Trades District Council No. 11

Our proposed primary subcontractors include the following:

J.R. Vinagro Corporation,
2208 Plainfield Pike, Johnston, RI 02919

Demolition, recycling, crushing, land clearing and site development contractor. J.R. Vinagro will be responsible for building demolition and abatement of the seed project Demolish B1103 as well as any other major demolition, land clearing or site work for future task orders.

Delta Mechanical Contractors,
44 Wilciar St. Warwick, RI 02886

HVAC, Plumbing and Fire Protection contractor that supports major U.S. Federal installations including Veterans Administration and NAVFAC. For maintenance repair and construction projects that involve interior renovation, Delta Mechanical will provide expertise on all plumbing and HVAC projects.

Arris Engineering Group,
667 South River Street, Plains, PA 18705

Arris Engineering provides MEP/FP engineering design, and project management services. They have successfully performed engineering services on Prime Design Team (DB MATOC) on several Design Build projects around the country. Tavares will use Arris to provide MEP/FP engineering and design services on any given task order.

William Stark Architects, Inc.,
126 Cover St, Fall River, MA 02720

Provider of Architect planning services including design build, code compliance, design review, technical documentation creation, 3-D, computer rendering and BIM modeling. Stark Architects will provide Architect services for Tavares on all Design-Bid-Build and Design-Build projects.

ESIS, Inc. dba Chubb Global Risk Advisors, One Financial Center, 22nd Floor, Boston, MA 02111

Provider of Environmental Scientists and Engineers, Certified Industrial Hygiene Specialists, Ergonomists, HSE Auditors, Environmental Compliance Professionals and Laboratory Technicians. Services include Environmental Compliance, Environmental Due Diligence and Building Sciences. For Tavares Chubb Global Risk Advisors will provide on an as needed basis: Asbestos/Lead/Regulated materials management, Asbestos program management services, Regulated and Hazardous Waste Management Service and Written Safety Health and Safety Program Development for AHAP.

- Original Period of Performance End Date: 4/5/2016
- Current Period of Performance End Date: 4/5/2016
- Explain the difference in Period of Performance, if applicable: n/a

BRIEF DESCRIPTION OF EFFORT

This was a $2,610,500 Asbestos Abatement and demolition project that Tavares performed for Essex Newbury North Contracting on behalf of Gilbane. The project required abatement and demolition of a 1971 Building, hazardous pipe tunnel, roof, walls, slab and foundation. We also had to separate the demolished building from an existing building to remain. Tavares used JR Vinagro (see Tavares Organization Chart) for the heavy demolition and abatement while Tavares personnel demolished and abated more intricate components of the project.

REFERENCE RELEVANCY TO THE MACC IDIQ REQUIRMENTS

This project is similar to the seed project as it includes building, slab and foundation demolition, asbestos abatement in Massachusetts with almost identical site conditions. This project also includes repairing all disturbed areas, damaged areas and replacing back sidewalks and curbs.

- Explain the difference in Period of Performance, if applicable: n/a

BRIEF DESCRIPTION OF EFFORT

This project was for the vertical construction of a new free-standing Walgreens store in Providence, RI. The reason why we chose this project is because it was a vertical construction project that included new parking lots, road, sidewalks, plumbing, electrical, roofing, HVAC, interior build out, masonry and sanitary sewer.

REFERENCE RELEVANCY TO THE MACC IDIQ REQUIRMENTS

It demonstrates Tavares ability to oversee and manage construction projects from start to finish including a dozen or more subcontractors simultaneously. This project showcases a broad range of the MACC IDIQ task order requirements in a single past performance reference.

BRIEF DESCRIPTION OF EFFORT

This $5M+ project included the removal of lead paint from existing steel, misc metals and brick/CMU; lead paint abatement, mold remediation and demolition of concrete, wood, CMU, structural and non structural steel and steel decking, asbestos caulking removal, demolition of floor openings, concrete and CMU wall removal, slabs, beams, etc.

REFERENCE RELEVANCY TO THE MACC IDIQ REQUIRMENTS

This project demonstrates that Tavares can successfully complete a substantial demolition and abatement project of high complexity. This PPI demonstrates our knowledge of the abiding by specifications for maintaining waste shipment records, documentation, certificates of disposal, hazardous waste manifests, treatment, storage and disposal facilities.

We at Tavares have developed a high acumen for safely removing hazardous buildings and building components.

BRIEF DESCRIPTION OF EFFORT

This project is a now a $7M contract for Tavares LLC to install more than 3,000 doors, frames and hardware for both interior and exterior doors throughout the 61-floor building. The project is being self-performed by Tavares labor force. All doors, frames and hardware are engineered.

REFERENCE RELEVANCY TO THE MACC IDIQ REQUIRMENTS

For the MACC IDIQ Tavares included this project as it serves as a good example of project engineering and self-performing of tasks on a large scale. Tavares has in-house carpenters, painters, remediation specialists, demolition, doors and ceiling and thus can self perform on a majority of the maintenance and repair portion of any task order.
