Reference: Jonathan Dickinson Missile Tracking Annex (JDMTA) Custodial Service (Notice ID FA2521-20-Q-0015)

Dear Rosita Serrano,

Thank you for allowing us this opportunity to present our firm, MJ Global LLC, as a potential suitor for the Jonathan Dickinson Missile Tracking Annex (JDMTA) Custodial Service solicitation and any upcoming projects for the US Department of Defense.

INTRODUCTION:

MJ Global LLC is please to submit this Technical Approach and Capability to demonstrate our ability to perform on the Custodial Services at the Jonathan Dickinson Missile Tracking Annex (JDMTA).

MJ Global is a facilities management firm based out of South Florida led by Maria Martinez, a licensed general
contractor by the State of Florida.

MJ Global provides reliable and quality facility management services. As a result, working with major federal
agencies MJ Global has gained an in-depth knowledge and breathe of experience of facilities management.

Since its inception, MJ Global has successfully completed every job on time and within budget, oftentimes
finishing ahead of schedule with zero complaints. As a sub-contractor MJ Global has completed variety of
projects ranging in both scale and complexity

SCOPE OF SERVICES:

We have reviewed the PWS as well as details discussed during the site visit on August 13th, 2020 and is confident, we can deliver and performed all services with the PWS.

MJ Global LLC shall provide all personnel, equipment (mops, buckets, brooms, and buffer) materials, supplies, transportation, supervision, and other items and services necessary to perform custodial services to present a clean, neat and professional appearance at Jonathan Dickinson Missile Tracking Annex (JDMTA), Facility 28001, located near Jupiter, Florida; in accordance with all local, state, and federal laws and base policies.
All services performed must meet the prescribed standards stated below.

Facility 28001: 2,117 SF (Category 1, admin/computer/technical/hallways/break rooms)
Facility 28001: 314 SF (Category 2, restrooms/empty trash containers)

PROJECT ORGANIZATION:

MJ Global will have a team of people dedicated to servicing JDMTA facility. Maria Martinez will be the Project Manager. Ms. Martinez will also be responsible for the supervision, administration and scheduling of the janitors. There will be two (2) part time janitors assigned to this facility. They will rotate within the schedule to be able to service JDMTA every Tuesday and Friday.

TECHNICAL REQUIREMENTS:

MJ Global will perform the services as follows:

Category 1: (Frequency of Service - Every two weeks)

1. Maintain Floors. (Once every two weeks)
All floors, except carpeted areas, shall be swept, dust mopped, damp mopped, wet mopped, buffed, scrubbed, sealed, stripped and waxed, as needed, to ensure they have a uniform appearance and freedom from dirt, debris, dust, scuff marks, heel marks, wax build up, other stains and discoloration, and other foreign matter. Baseboards, corners, and wall/floor edges shall also be clean. A nonskid wax is required. All floor maintenance solutions shall be removed from baseboards, walls, furniture, trash receptacles, and carpeted areas. The contractor is not responsible for moving any desks or office machinery (i.e. shredders, printers, and computers) regardless of weight.

2. Public Ash Trays and Urns. (Once a week) The contractor shall empty all public ashtray urns/containers, replace sand as required, and clean ashtrays/containers to remove ashes, debris, odors, and stains.

3. Clean Drinking Fountains. (Once a week) Clean and disinfect all porcelain and polished metal surfaces, including the orifices and drain, as well as exterior surfaces of fountain. Drinking fountains shall be free of streaks, stains, spots, smudges, scale, and other obvious soil.

4. Vacuum Carpets. (Twice a month) Vacuum carpeted areas. Carpeted area shall be free of all visible dirt, debris, litter and other foreign matter. Easily moveable items such as chairs and trash cans shall be moved to vacuum underneath. Any spots shall be removed by carpet manufacturer's approved methods as soon as noticed.

5. Breakroom Cleaning. (Once a week) Trash shall be removed during normal duty hours. The contractor is not required to clean dishes, flatware, or glassware left by using organization, nor the interior of microwaves, refrigerators or other kitchen appliances. The contractor is required to provide and replenish all consumable items (liquid hand soap and paper products) in installed

~~Category 2~~ (Restrooms Frequency of Service - Twice per week).

1. Clean and Disinfect Surfaces. Clean and disinfect all surfaces. After cleaning, all surfaces shall be free of deposits, dirt, streaks, mold, mildew, and odors.

2. Showers, Toilet Bowls and Urinals. Descaling shall be performed to keep areas free of scale, soap films, and other deposits. After descaling, surfaces shall be free from streaks, stains, scale, scum, urine deposits, rust stains, and other deposits.

3. Sweep and Mop Floor. After sweeping and mopping, the entire floor surface, including grout, shall be free from litter, dirt, dust and debris. Grout on wall and floor tiles shall be free of dirt, scum, mildew, mold, and residue. Floors shall have a uniform appearance free of detergent residue, or any evidence of soil, stain, film or standing water. Floors shall be stripped, scrubbed, and waxed once every 6 months.

4. Stock Restroom Supplies. The contractor shall ensure restrooms are stocked sufficiently so that supplies, including soap for the soap dispensers, do not run out. Supplies shall be stored in designated areas. The contractor is required to provide and replenish all consumable items (liquid hand soap and paper products) in installed dispensers. The contractor is not responsible for replenishing shampoo or other personal care products.

The contractor ls not responsible for replacing any personal soap dispensers. Trash cans shall be moved to vacuum underneath. Any spots shall be removed by carpet manufacturer’s approved methods as soon as noticed.

5. Trash Removal. (Twice per week) All trash shall be collected and disposed of in the nearest designated dumpster. Trash receptacles shall be emptied and kept clean, free of dirt, stains, debris, foreign matter, odors, and returned to their initial location. Plastic liners for all trash receptacles shall not be torn, worn, or contain residue. The contractor is not responsible for picking up recyclable materials from designated recyclable material bins. If recyclable materials are found in any trash cans it will be considered trash and shall be removed by the contractor. Fine security shedding (less than%" x 1") is considered trash. Strip shredding {larger than %" x 1") is recyclable. The contractor is not responsible for emptying shredders.
