Good afternoon Dionne,

I hope this email you finds you safe and healthy.

After reading your email I reviewed you your account and I noticed you have been part of the Govcon Course since April 9th 2018. Therefore you had access to the entire course for over two years. I also noticed that the last time you logged in was 6 months ago. As we always state, in order to be successful we all have to put in the time to learn as well as take action on the steps Eric presents in the course.

As far as the Facebook group, you were accepted into the group on October 27th, 2019. In fact your last post was January 24th of this year. I am not sure why you feel you were excluded.

If I remember correctly you also were part of the exclusive Mastermind group in the DMV area. That allowed you to network with many others members of the Govcon community.

We do offer a 30 day money back guaranteed for those like yourself feel that this is not the right path or method of learning for them. Your 30 days were expired 2 years ago. But because we feel that if you are this unhappy with our program that we can hopefully come to an agreement and refund you half of the amount

you invested. You made 12 payment so $99 August 2019 to July 2020. Therefore we are willing to offer you a refund of $594. Please just send me your email associated with your Paypal account so I can process the payment.

I wish you the best in all your current and future endeavors.

Regards,
*Maria Martinez*

Eric,

When I joined the GovCon community, I did so because you represented it as a team effort. However, you have deliberately excluded me from the FB group and declined to provide assistance when requested. That is your right to do so, but you don't have the right to keep my money without providing a service.

Please refund the full amount I paid for participation and remove the interview I provided regarding fraud that you posted. The address for the refund is PO Box 1425, McLean, VA 22101.

Dionne
